Handscore Report Request Form

Directions/information: Candidates may request a handscore of their data file. Handscoring is a manual check of the data file to determine if there have been any errors in scoring. Although the probability of such an error is extremely remote, this service is available. The request to handscore an examination will not grant permission to see the examination questions. For reasons of test security, no candidate is allowed to review the examination or any of its items.

To ensure correct reporting of results, PTC automatically performs handscores of examinations of candidates who score within 3 points of passing as a quality control measure. Thus, it is extremely doubtful that any examination results will change from "fail" to "pass" through handscoring.
